

PUSHER

ITSPUSHER.COM

PUSHER is the continued evolution of Toronto composer and DJ Marty Bernie, classically trained but firmly focused towards to the future of electronic music. With a neon bright energy soldered between the circuitry of 16-bit soundtracks, cinematic sound design and a bass-bin rattling back-beats, **PUSHER's** the model of a modern independent producer on the cusp of global success.

Racking up close to 3 Million plays online with his self released songs, mixes for **VICE**, **Too Future**, **Run The Trap** and EDM.com and wildly popular remixes for the likes of **Jack Ü**, **Major Lazer**, **Ryn Weaver** and **Taylor Swift** have led to him landing performances at major festivals like **Bestival**, **Future Forrest** and **WayHome** alongside some of the biggest DJs in the world. With a debut major label release due in 2016 and support from the scene's biggest players, **PUSHER** is leading the pack as one of the scene's freshest new voices in **Future Bass** music.
